Statement regarding the Packaging and Packaging Waste Regulation – PPWR
EU Regulation (EU) 2025/40

Dear Ladies and Gentlemen,

The EU Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR) came into force on February 11th, 2025 and has been binding in all member states since August 12th, 2026.
The aim of the PPWR is to reduce packaging waste, promote reuse and recycling, and increase the use of recyclates.

We, R+W Antriebselemente GmbH, hereby declare that the packaging materials and packaging aids used for our transport packaging have been assessed by our suppliers with regard to the requirements of the EU Regulation on Packaging and Packaging Waste (PPWR, Regulation (EU) 2025/40) as well as relevant substance restrictions.

For all purchased packaging materials and packaging aids, we have the necessary technical documentation and assessments, supplier declarations regarding substances of concern and declarations of conformity from our suppliers.

We only use transport packaging (according to Art. 3 para. 1 no. 7 PPWR) **that are PPWR compliant.**

If you have any further questions, please contact us on Tel. +49 9372 9864-0; E-Mail: info@rw-kupplungen.de available from our company.

Best regards,

R+W Antriebselemente GmbH
